INTRODUCTION

Hand-painted set of fantasy-themed icons. We added different types of icons and corresponding frames for each type. Also, source PSD files are included in case you need to adjust the original files. We plan to animate the whole pack and add animated frames. Currently, all icons are animated.

Pack Contains:

- 76 icons of different themes 256x256
- 8 types of frames
- All icons animated.
- Demo Scene
- PSD files

VERSION

- 1.0 First release
- 1.1 Added animated fire icons
- 1.2 Added animated poison and nature icons
- 1.3 Added animated ice and arcane icons
- 1.4 Added animated blood icons
- 1.5 Added animated death/general icons
- 1.6 All icons are now animated
- 1.7 Added Holy icons static+animated

NAVIGATION

There are two navigation buttons in the demo scene. They allow switching demo panels.

SCRIPTS

There is one script in this pack. It is made for a demo scene with testing purposes but you can use it in your projects.

- NavManager - (navigation script, that allows you to switch between panels).

LEGAL INFO

It was hard work to create this pack, so you can only use it in your projects if you purchased it at Unity Asset Store or other legal stores. Otherwise, you are not allowed to use this pack since you are:

- A) Breaking the law.
- B) You are stealing other people's hard work.

TIPS & TRICKS

Both frames and icons are 256x256 we made this for better optimization and industry standard. But if you are using icons with frames we recommend reducing the icon size to 220x220

For animated icons animation speed can vary, so you should adjust it according to your needs, in the demo scene we set everything just for testing purposes, you can change these settings to fit your game.
